Report of the Project Status

Project's Name
MyCook

Project Manager
Professor Miguel Cruz

Student
Ângela Barros

Project's Overview

| Activity | Completed | Issues | Completion date |
|---------------------|-----------|----------------|-----------------|
| Use Case Diagram | YES | None | 09-03-2017 |
| Define Scope | NO | Not Applicable | Not Applicable |
| Mockups Web | YES | None | 10-03-2017 |
| Mockups Mobile | YES | None | 10-03-2017 |
| Model the database | YES | None | 08-03-2017 |
| Define architecture | YES | None | 08-03-2017 |

Status Summary

This week, I started to learn more about ASP.NET MVC and what I would need in order to accomplish my goal of developing my project. Professor Miguel Cruz gave me a crash course of ASP.NET MVC which helped me understand and start coding. Also, and the most important of all, I presented some mockups with my vision of the app and after some discussion and a bit of compromising I "locked" the mockups meaning that I received green light to start implementing my designs.

Next week's goals

| Item | Description | Observations |
|------|----------------------------------|---|
| 1 | Define Scope | <i>This task was postponed last week.</i> |
| 2 | Develop database | |
| 3 | Connect to the database using EF | |
| 4 | Login | Depends on the success of goal 3 |

| Item | Description | Observations |
|------|-------------|----------------------------------|
| 5 | Menu | Depends on the success of goal 4 |
| 6 | Logout | Depends on the success of goal 5 |
